Tell me about yourself and your family, and your life here at Ohkay Owingeh.

You have lived a long time here at Ohkay Owingeh. What would you like the next generations to know about your heritage and your experiences?

In sharing with others, are there stories about Ohkay Owingeh that stand out as most important in your life here?

What stories and messages do you think should be shared with people who don't live here, but who might be interested in learning more about Ohkay Owingeh?

Do you have stories, photographs, or artifacts that you would consider giving to an Ohkay Owingeh Museum to let other people know about your history?

If you had one message to give to younger people and non-residents about this place, what would it be?

Do you have other comments to offer?
